We use the Stone Soup fable as a teaching tool to help people see that by working together we can do more than we thought was possible. Like the Stone Soup traveler, we each have a magic stone. When we each give our gifts, we can create a feast for the whole world.

Books

Stone Soup for the World: Life-Changing Stories of Everyday Heroes is called a “handbook for humanitarians” featuring 100 stories of people who show the power each one of us has to change the world.

Stone Soup for the World is a blueprint for building a better world. Its heroes have lifted their neighbors and their communities. They challenge each of us to respond in kind.

Walter Cronkite

Educational Curriculum

Our educational curriculum is based on stories about the everyday heroes in *Stone Soup for the World*. Pilot-tested by the YMCA of the USA, it is used in 120 communities to teach young people to develop their language arts, social studies and leadership skills.

This curriculum is a terrific tool for teachers who want to shape the lives and characters of young people. It will move the whole field of service-learning forward.
